Overview

Cost Overview

The purpose of the Cost (CST) component is to collect information on student charges for Cost of Attendance estimates and to calculate an Average Net Price (ANP) for first-time, full-time undergraduate students to meet requirements of the Higher Education Act of 1965 (HEA), as amended. This component also collects information on tuition and fees for other groups of students.

Much of the data reported on CST appear on College Navigator, which is updated only one time after CST data have been reviewed by NCES. Therefore, any data reporting errors may stay on College Navigator for a full year.

Additionally, the ANP calculation has important implications for what students see about your institution, and also for the College Affordability and Transparency Center lists.

Data Reporting Reminder:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes to reporting:

- No changes for the 2025-26 data collection period.

Resources:

- To download the survey materials for this component: Survey Materials
- To access your prior year data submission for this component: Reported Data

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Screen: Section 1 - Student Charges: Part B - Cost of attendance for full-time, first-time undergraduate students				
Screen Entry	This value is expected to be within 20% of the prior year amount. Please correct your data or explain. (Error #11110) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	In calculating housing for the Cost of Attendance, the FAFSA Simplification Act brought several significant changes to how housing costs are determined for students. One notable adjustment for FY2024-2025 was shifting from using weighted average to median values for housing cost calculations. This approach differs from FY2023-2024 when housing costs were based on weighted averages. These changes aim to more accurately reflect the true living expenses students face. 2023-2024 On Campus Housing - Weighted Average: $4,215 2023-2024 On Campus Housing - Median: $5,408

Reason	The cost of living increased significantly. Accuracy is confirmed.			
Screen Entry	For students living Off-Campus (with family), any charges reported for food and housing are expected to be small, as it is assumed that students living at home with parents will be responsible for minimal food and housing costs. Please review your student financial aid budget(s), and if this amount is determined to be correct, please provide an explanation for the value reported. Otherwise, please revise your data. (Error #11564)	Explanation	Yes	
Reason	The primary reason for the decrease in the housing living off campus allowance is the lower cost of apartment rentals reflected in the annual survey conducted each November through www.apartmentfinder.com. In addition, there was a decline in the Bureau of Labor Statistics unadjusted 12-month Consumer Price Index for Fuels and Utilities, which impacted both the living off campus and living with parents' categories. The inflation rate for food in the Miami/Fort Lauderdale/West Palm Beach area was also lower, further contributing to the reduced cost of attendance for 2025-26.

Please correct your data or explain the discrepancy between the two amounts reported. (Error #11236)	Explanation	Yes
