Spring 2027 Elective Options

Some majors do not require electives. Be sure to check with your Academic Advisor! Courses of the 1000 and 2000 levels are typically recommended as electives for freshmen and sophomores. These are considered lower-level electives. The courses listed below are in addition to those listed on your Gen Ed Sheet. Additional courses taken from each section of the Gen Ed Sheet can be used toward your free elective credits.

***Please be sure to note the campus when selecting courses**
